

IDENTIFICATION GUIDE

TO

TIDY ISLAND'S LANDSCAPE PLANTS

The purpose of this Guide is to aid in the identification of the many trees, shrubs, flowers, ferns, and grasses growing on Tidy Island.

This Guide is not meant to be all-inclusive but to include those plants which we see most often and “catch our eye” as we travel on the Island.

Although created for the members of the Landscape Committee, other members of the Tidy Island community may find it interesting and helpful, too.

Plants are identified by common name and botanical name. Where possible, the location of the pictured plant is included.

The photographs are organized into separate files. Go to the web site and select the one(s) you want to view.

Document #1: Trees

Document #2: Shrubs

Document #3: Flower, Ferns, & Grasses
